Justering og av/på montering av skuffer.

Det er i prinsippet ikke behov for endringer på skuffeinstillingene ettersom det de er ferdig montert fra produsent. Skulle det vise seg att det alikevel skulle være behov for justering så følg tegningen nedenfor.

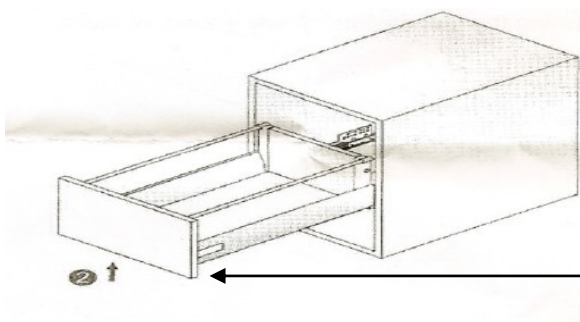

1. Vertikal og horisontal justering

Trekk ut skuffen for å nå justeringsskruene

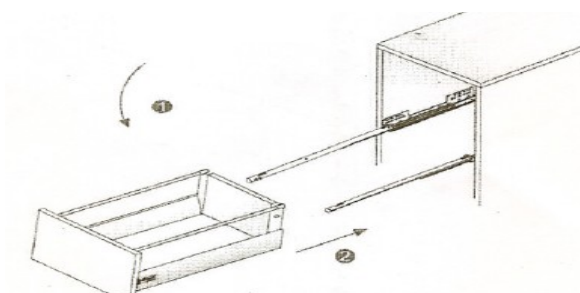

2. Demontering av skuffer:

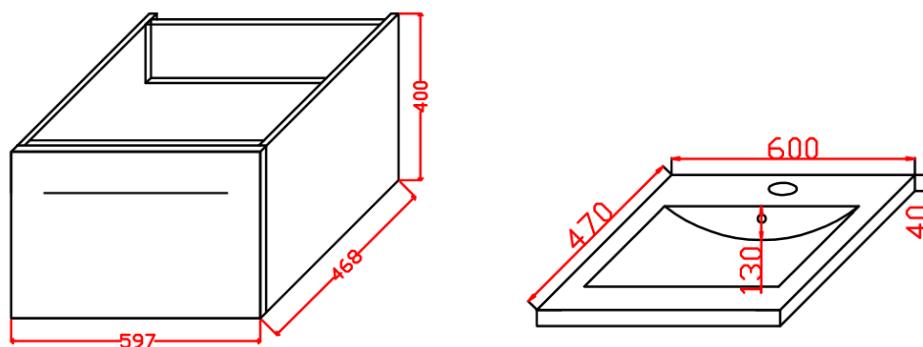

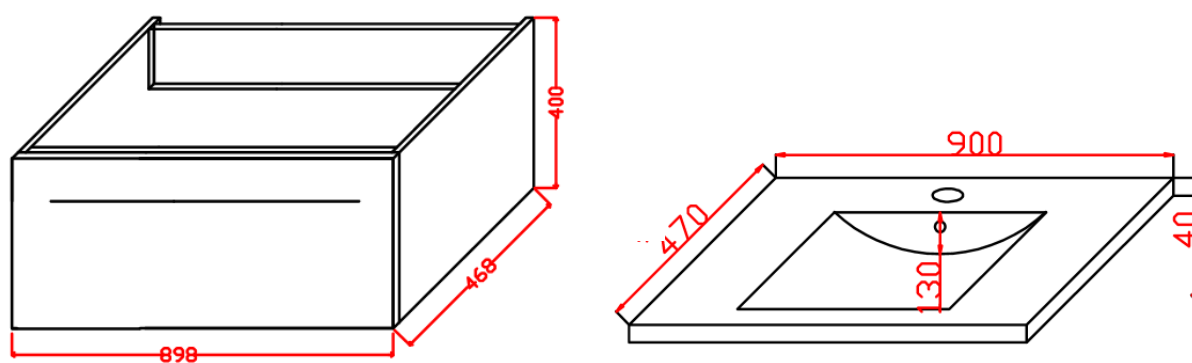

Dra ut skuffene og trekk de rett opp fra skinnene.

3. Installation av skuffer:

Dra ut skuffe gliderne og plasser skuffen ned på skinnene. Dytt deretter skuffen inn i og den vil falle på plass.
